9 May 2025

iFOREX Financial Trading Holdings Ltd.

(trading as "iFOREX")

("iFOREX", the "Company" or the "Group")

Announcement of Publication of a Registration Document and Potential IPO on the Main Market of the London Stock Exchange

iFOREX Financial Trading Holdings Ltd., a leading fintech business with a proprietary online and mobile trading platform for multi-asset contracts for difference ("CFD"), announces that it is considering an initial public offering (the "IPO" or the "Offer") and that it has earlier today published a registration document (the "Registration Document"). The Company is considering applying for admission of its Ordinary Shares to the equity shares (commercial companies) category of the Official List and to trading on the Main Market of the London Stock Exchange ("Admission").

The Registration Document has been approved by the FCA and a copy is available for viewing online at www.iforex.com/investors/investor-relations, subject to certain access restrictions. A copy of the Registration Document will be uploaded to the National Storage Mechanism and be available for inspection at https://data.fca.org.uk/#/nsm/nationalstoragemechanism.

Capitalised terms not defined in this announcement have the meaning given to them in the Registration Document.

iFOREX Highlights:

- Developed and operates a proprietary online and mobile CFD trading platform, allowing primarily retail clients to trade CFDs across 870+ financial instruments, including currencies, commodities, indices, stocks, cryptocurrencies and exchange traded funds ("ETFs").
- Scalable, integrated proprietary technology solution which includes a trading platform, customer relationship management ("CRM") platform, embedded risk monitoring, integrated payments, and internally developed marketing technology, enabling efficient client attraction, retention, and management.
- Data driven strategies leveraged across multiple advertising channels to efficiently target highvalue clients, delivering measurable results.
- Proven track record of navigating market turmoil with robust risk management. The technology and policies developed by the Company offer real-time financial risk monitoring, aggregate exposure reports, and trading limit alerts.
- History of profitability and cash generation, iFOREX has made significant distributions to shareholders, amounting to in excess of USD 262 million since 2014. For the year ended 31 December 2024, trading income was USD 50.1 million, adjusted EBITDA of USD 9.7 million and adjusted profit before tax of USD 7.6 million.
- Will be led by a seasoned Board of Directors with deep regulatory and industry expertise, supported by a highly experienced senior management team, most of whom have been with the business for over a decade.
- Admission is expected to raise the Company's profile, enhance corporate governance and transparency, attract new clients, and help the Company leverage its existing client base.
- iFOREX intends to invest the proceeds of the IPO in branding, brand awareness, and integrating new technologies, including AI, to enhance user experience and automation.
- Plans to obtain new regulatory licenses to increase penetration into new and existing markets.
- The current intention is to maintain a progressive dividend policy, and the dividend for FY25 is expected to be set at approximately 50 per cent. of adjusted profits (as opposed to the typical historical level of a significant portion of profits).

Itai Sadeh, CEO of iFOREX, commented:

"We are delighted to announce our potential IPO in London. This news marks a significant milestone for our business as we continue to capitalise on the high demand and long-term growth opportunities within our thriving sector. London is one of the most attractive and competitive capital markets in the world, with a deep understanding of fintech companies. The opportunities to enhance our global brand presented through the potential listing, combined with our strong track record of profitability,

proprietary platform, and robust risk management, position us well to accelerate growth and expand in our target markets.

"I would like to take this opportunity to thank our dedicated employees, whose hard work and commitment has been instrumental in our success so far. I would also like to thank our loyal clients for their continued support and trust in our services. We are looking forward to the challenge and goal of delivering outstanding shareholder value in the coming years and beyond."

Potential Offer Highlights

Should iFOREX proceed with an IPO, the current expectation is that:

- The Company would be admitted to listing on the equity shares (commercial companies) category of the Official List and trading on the Main Market of the London Stock Exchange.
- The Offer would be comprised solely of new Ordinary Shares.
- The Offer would be made to institutional investors by way of a placing together with an offer to be made to intermediaries using the Bookbuild platform for distribution to retail investors in the United Kingdom (the "Bookbuild Intermediaries Offer").
- Eyal Carmon, the business' founder and majority shareholder (the "Founder"), will remain the
 majority shareholder of iFOREX upon Admission and has agreed to enter into a relationship
 agreement upon Admission. The Founder will continue to assist with providing his expertise
 to the business through a consultancy agreement with Recap Ltd., a company wholly owned
 by the Founder.
- The Founder, the Directors, the Proposed Directors, and certain other senior managers and employees who hold an interest in the Ordinary Shares through an employee share ownership trust (the "ESOP") have agreed to a 12-month lock-up period, and subsequent 12 month orderly market period, in respect of their interest in the Ordinary Shares held at Admission.
- Any additional details in relation to the Offer, together with any changes to corporate
 governance arrangements would be disclosed in an Intention to Float ("ITF") announcement
 and/or the Prospectus, if and when published.

• The Company has engaged Shore Capital and Corporate Limited as Sponsor and Shore Capital Stockbrokers Limited as Sole Bookrunner in the event the Offer proceeds.

Investment Highlights

The Directors believe that iFOREX benefits from a combination of competitive advantages which positions the Company to build on the strong foundations built to date to grow revenue and profitability. In particular, the Directors believe that iFOREX benefits from the following key strengths:

Scalable and integrated solution, including a proprietary trading platform, offering a high-quality user experience and intelligent back-end workflows

- The Company's scalable and integrated solution offers a high-quality trading experience through its trading platform ("Trading Platform"), with continued enhancements to user experience and client journey supported by analytically driven customer service for its high value clients and fully integrated back-end workflows to improve marketing and operational outcomes.
- The Trading Platform is a proprietary solution, created in-house, which is continually updated
 and improved by a dedicated development team. This flexibility allows the Group to adjust
 quickly to regulatory changes and to roll out new products and features to enhance the client
 journey and user experience.
- The Trading Platform is fully integrated with the Group's proprietary organisational operating system or Statistical Client Motivation Management platform ("SCMM"). This operating system is a scalable suite of modules, designed to automate and optimise work processes, including client relationship management, analysis and event-based task management which assists the Group in achieving efficiencies and the effective handling of both prospective and active clients.
- The Directors and the Proposed Directors believe that one of the key features of the Group is its Group's ability to provide human support at key intersections in the client's engagement with the Group that continues throughout the lifetime of the client. The Trading Platform is equipped with a selection of decision assisting trading tools, advanced live charts and indicators to help inform clients with trading choices and strategy development.

Data driven client acquisition to efficiently target valuable clients

- The Group's marketing strategy primarily focuses on targeting high quality prospective clients through cost-effective marketing initiatives across multiple advertising channels which provides measurable results for the Group. The Group utilises its marketing technology and SCMM platform to profile potential clients based on various data points collected at registration and thereafter, ultimately aiding the Group in focusing on targeting New Clients that will be most valuable to the Group.
- To assist with implementing the Group's marketing strategy, the Group has developed a proprietary marketing technology which manages marketing budgets, the placement of campaigns on websites, and provides quick and in-depth analysis on the performance of each campaign. This technology provides insights to the marketing department to continually target improvements in efficiency of client acquisition helping the Company to allocate marketing resources to lower client acquisition cost and assist its 'in-house advertising agency'

to maximise the return on investment of marketing spend and to continue to attract valuable clients.

The Group's SCMM platform also profiles potential clients based on various data points
collected at registration. This aids the Group in focusing efforts on prospective clients with
higher potential for converting into clients and uses predictive models to target New Clients
who will be most valuable to the Group both in terms of loyalty and potential transaction
volumes.

Highly cash generative business with a strong track record of paying dividends to its shareholders

 iFOREX has been highly profitable with excellent cash generation which has allowed the Group to make significant distributions to shareholders amounting to in excess of USD 262 million since 2014.

Comprehensive and rigorous risk management capabilities

- iFOREX's risk management approach is central to the function and success of the Group's business. To assist with this, the Group has developed technology which incorporates real-time financial risk monitoring including aggregate exposure reports provided by, inter alia, instrument, asset class, broker, geography, client groupings and single client.
- The technology and policies developed by the Group incorporate real-time financial risk monitoring, including aggregate exposure reports and real-time financial risk limitation systems with certain trading limit triggers and alerts. The Group does not use any external hedging products and instead manages its risk by placing limits on exposure and matching its client's positions and monitoring, and managing, its clients unmatched positions against predetermined thresholds.
- The success of this monitoring system is evident from the last 10 years, where despite there being a number of global macroeconomic events, there have been no revenue level losses over any one-month period.

Highly experienced Board of Directors combined with a seasoned management team, the majority of whom have been in the business for more than 10 years

- The Company will be overseen by a highly experienced Board of Directors, comprising individuals with extensive regulatory and compliance expertise and relevant industry experience.
- The Group has a strong senior management team, the majority of whom have been in the business for more than 10 years, resulting in a wealth of experience and extensive knowledge of both the Group itself and also the sector in which it operates.
- The Directors and Proposed Directors believe the senior management team have been instrumental to the success of the Group, bringing together complementary skills across technology, particularly in software and user interface development, the understanding of financial markets and regulatory expertise.

Significant opportunities for growth in a business benefitting from an industry with long term international growth drivers

- The online financial trading industry benefits from a number of significant growth opportunities resulting from further technological and demographic changes. As of 2024, there were approximately 5.5 billion internet users worldwide, representing 68 per. cent. of the global population. A number that is expected to grow particularly with expanding middle classes in Asia and Africa.
- The Directors and Proposed Directors expect that increasing growth of internet access and disposable incomes amongst its target markets is expected to drive business growth going forward. Similarly, technological advancements in online financial trading including leveraging AI and machine learning for predictive analytics, algorithmic trading and personalised investment advice can enhance trading efficiency and opportunities for clients. The use of mobile trading platforms can also bring in a broader, more tech-savvy audience of young investors. The growth of more tech-enabled generations with disposable income will benefit online platforms over more traditional trading and wealth management services.

Growth Strategy:

iFOREX has a focused plan to continue to grow revenue and profitability which leverages the strong foundations built to date and intends to attract new clients in existing markets and by applying for new regulatory licences and/or expanding into new jurisdictions. In order to make the Trading Platform more attractive, the Group will continue to evolve the products that it offers.

Attracting New Clients in existing markets

- In the Group's existing markets there remains significant opportunities to capture market share from other CFD providers.
- The Group has a sophisticated marketing engine and focussed marketing strategy which it intends to leverage through increased marketing spend in order to enhance its position and improve brand recognition in the CFD market and to attract New Clients to the Trading Platform.

Increasing the longevity of the Group's Active Clients

 The Group intends to invest in its Trading Platform to enhance user experience and the breadth of its offering so as to improve retention and drive engagement. This improved experience will include continuing to improve the product offering and engaging Active Clients with insight to encourage trading activity.

Accessing new markets

- The Directors believe there is significant opportunity for expansion into markets in which the Group does not presently operate. The Group is well positioned to enter into new geographies using the FIH licence. Key success factors include marketing spend, adaptation of the customer interface with differing languages and payment provisions and brand recognition.
- The Company will evaluate new licence applications based on the commercial opportunity.
 These include Australia, Malaysia, New Zealand, the Philippines, Chile, the UAE and the United Kingdom.

Seek strategic M&A opportunities

- The CFD broker universe is highly fragmented across many geographical markets and products. The Group may seek bolt-on acquisitions that offer complementary technologies, products or geographies.
- The Directors and the Proposed Directors believe that well managed listed CFD providers benefit from scale and brand recognition. Accordingly, they believe that becoming a listed company will help achieve its growth ambitions.

Further information on iFOREX

Current Trading and Outlook

The Group has had a good start to the year with trading income for the first quarter of 2025 ahead of the first quarter of 2024. 3,558 new clients were added in Q1 2025 which is more than in the equivalent period last year and the previous quarter, which is an encouraging sign that the business is making progress. Nearly 34 per cent. of revenue was from foreign exchange transactions, with income from commodities being the second largest contributor to revenue. The Group has seen enhanced volatility in the second quarter following the announcement of US Tariffs on "Liberation Day" (2 April 2025) and other countries subsequently announcing or contemplating reciprocal tariffs. This has made markets more volatile, and the Group has seen increased trading activity from its clients as a consequence which resulted in revenues in April 2025 increasing by 46 per cent. compared to revenues in April of 2024. The Board expects volatility in markets (equities, foreign exchange, commodities) to remain elevated for some time as a consequence of the recent change in US foreign policy.

This announcement is not an offer of securities for sale into the United States. The securities referred to herein have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold in the United States, except pursuant to an applicable exemption from the registration requirements under the Securities Act. No public offering of securities is being made in the United States.

This announcement is not for publication, distribution or release, in whole or in part, directly or indirectly, in or into Australia, the Republic of South Africa, Japan, Canada or any other country outside of the United Kingdom where such distribution may lead to a breach of any legal or regulatory requirement (each a "Restricted Jurisdiction"). The Ordinary Shares have not been, and will not be, registered under the applicable securities laws of (and clearances have not been, and will not be, obtained from the relevant securities authorities or commissions of) any Restricted Jurisdiction. The distribution of this announcement in or into (or to persons or residents in, or citizens of) jurisdictions outside of the United Kingdom may be restricted by law and persons into whose possession this announcement comes should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the laws of the relevant jurisdiction.

This announcement is only addressed to and directed at specific addressees who: (A) if in a member state of the European Economic Area (the "EEA"), are persons who are "qualified investors" within the meaning of Article 2(e) of Regulation (EU) 2017/1129 (as amended) (the "Prospectus Regulation") ("Qualified Investors"); and (B) if in the United Kingdom, are "qualified investors" within the meaning of Article 2(e) of the UK version of the Prospectus Regulation as it forms part of domestic law in the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the "UK Prospectus **Regulation**") who are: (i) persons having professional experience in matters relating to investments who fall within the definition of "investment professionals" in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order"); or (ii) high net worth entities falling within Article 49(2)(a) to (d) of the Order; or (iii) are other persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of FSMA (as amended)) in connection with the sale of any securities of the Company or any member of its group may otherwise lawfully be communicated or caused to be communicated (all such persons referred to in (i), (ii) and (iii) together being "Relevant Persons"). This announcement must not be acted on or relied on (i) in the United Kingdom, by persons who are not Relevant Persons, and (ii) in any member state of the EEA by persons who are not Qualified Investors. Any investment activity to which this announcement relates (i) in the United Kingdom is available only to, and may be engaged in only with, Relevant Persons, and (ii) in any member state of the EEA is available only to, and may be engaged only with, Qualified Investors.

This announcement may include statements that are, or may be deemed to be, "forward-looking statements". These forward-looking statements may be identified by the use of forward-looking terminology, including the terms "believes", "estimates", "plans", "projects", "targets, "anticipates", "expects", "intends", "may", "will", "forecast" or "should" or, in each case, their negative or other variations or comparable terminology, or by discussions of strategy, plans, objectives, goals, future events or intentions. These statements reflect beliefs of the directors of iFOREX Financial Trading Holdings Ltd (the "Directors") (including based on their expectations arising from pursuit of the Group's strategy) as well as assumptions made by the Directors and information currently available to the Group. Although the Directors consider that these beliefs and assumptions are reasonable, by their nature, forward-looking statements reflect the Group's current view with respect to future events and involve known and unknown risks, uncertainties, assumptions and other factors that may cause the Group's actual financial position, results of operations, cash flows, liquidity, prospects, growth or strategies to be materially different from any future such metric expressed or implied by such statements. Past performance cannot be relied upon as a guide to future performance and should not be taken as a representation that trends or activities underlying past performance will continue in the future. Forward-looking statements speak only as of the date they are made. Forwardlooking statements may and often do differ materially from actual results. No representation is made that any of these statements or forecasts will come to pass or that any forecast results will be achieved.

In light of these risks, uncertainties and assumptions, the events in the forward-looking statements may not occur or the Company's or the Group's actual results, performance or achievements might be materially different from the expected results, performance or achievements expressed or implied by such forward-looking statements. Each of Shore Capital, Shore Capital Stockbrokers Limited, the Company or any member of the Group, or any of such person's affiliates or their respective directors, officers, employees, agents or advisers expressly disclaim any obligation or undertaking to update, review or revise any such forward-looking statement or any other information contained in this announcement, whether as a result of new information, future developments or otherwise, except to the extent required by applicable law. You are therefore cautioned not to place any undue reliance on such forward-looking statements. In addition, even if the results of operations, financial condition and liquidity of the Group, and the development of the industry in which the Group operates are consistent

with the forward-looking statements set out in this announcement, those results or developments may not be indicative of results or developments in subsequent periods. No statement in this announcement is intended to be a profit forecast.

Any purchase of Ordinary Shares in the possible Offer should be made solely on the basis of information contained in the Prospectus which may be issued by the Company in connection with the possible Offer. The information in this announcement is subject to change. Before purchasing any Ordinary Shares, persons viewing this announcement should ensure that they fully understand and accept the risks which will be set out in the Prospectus, if published. No reliance may be placed for any purpose on the information contained in this announcement or its accuracy, fairness or completeness. Neither this announcement, nor anything contained in the Registration Document, shall constitute, or form part of, any offer or invitation to sell, or any solicitation of any offer to acquire, any Ordinary Shares or any other securities, nor shall it (or any part of it), or the fact of its distribution, form the basis of, or be relied on in connection with, or act as any inducement to enter into, any contract or commitment whatsoever.

The Company may decide not to go ahead with the possible Offer and there is therefore no guarantee that a Prospectus will be published, the Offer will be made or Admission will occur. Potential investors should not base their financial decision on this announcement. Acquiring investments to which this announcement relates may expose an investor to a significant risk of losing all of the amount invested. Persons considering making investments should consult an authorised person specialising in advising on such investments. Neither this announcement, nor the Registration Document, constitutes a recommendation concerning a possible offer. The value of shares can decrease as well as increase. Potential investors should consult a professional adviser as to the suitability of a possible Offer for the person concerned.

Nothing contained herein constitutes or should be construed as (i) investment, tax, financial, accounting or legal advice, (ii) a representation that any investment or strategy is suitable or appropriate to your individual circumstances or (iii) a personal recommendation to you.

Apart from the responsibilities and liabilities, if any, which may be imposed on Shore Capital or Shore Capital Stockbrokers Limited by FSMA or the regulatory regime established thereunder, or under the regulatory regime of any jurisdiction where the exclusion of liability under the relevant regulatory regime would be illegal, void or unenforceable, none of Shore Capital nor Shore Capital Stockbrokers Limited nor any of their respective affiliates and/or any of their or their affiliates' directors, officers, employees, advisers and/or agents accepts any responsibility or liability whatsoever for, or makes any representation or warranty, express or implied, as to, the truth, accuracy or completeness of the information in this announcement (or whether any information has been omitted from the announcement) and/or any other information relating to the Company, the Group or its associated companies, whether written, oral or in a visual or electronic form, and howsoever transmitted or made available, or for any loss howsoever arising from any use of this announcement or its contents or otherwise arising in connection therewith.

Shore Capital and Shore Capital Stockbrokers Limited are authorised and regulated by the FCA in the United Kingdom and are acting exclusively for the Company and no one else in connection with the possible Offer. Shore Capital and Shore Capital Stockbrokers Limited will not regard any other person (whether or not a recipient of this announcement) as their client in relation to the possible Offer and will not be responsible to anyone other than the Company for providing the protections afforded to their respective clients nor for giving advice in relation to the possible Offer, the contents of this announcement or any transaction, arrangement or other matter referred to herein.

Certain data in this announcement, including financial, statistical, and operating information has been rounded. As a result of the rounding, the totals of data presented in this announcement may vary slightly from the actual arithmetic totals of such data. Percentages in tables may have been rounded and accordingly may not add up to 100 per cent.

Unless otherwise indicated, market, industry and competitive position data are estimated (and accordingly, approximate) and should be treated with caution. Such information has not been audited or independently verified, nor has the Group ascertained the underlying economic assumptions relied upon therein.

For the avoidance of doubt, the contents of the Group's website, or any website directly or indirectly linked to the Group's website, are not incorporated by reference into, and do not form part of, this announcement.
